2002 Public Release Dates for CAHSEE Materials

May 16	<i>Reporting CAHSEE Results for the 2001–02 School Year to Parents/Guardians</i> assistance packet posted to the CAHSEE Web site.
August 16	New set of released test questions posted to the CAHSEE Web site. The set includes 62 English-language arts questions (2 of which are writing tasks) and 60 math questions.
August 30	New CAHSEE Teacher Guides posted to the CAHSEE Web site. <i>Reporting Spring 2002 School, District, and County CAHSEE Results and Notifying Parents/Guardians of the CAHSEE for the 2002–03 School Year: Assistance Packet for Districts and Schools</i> posted to the CAHSEE Web site.
September 20	<i>Reporting Spring 2002 School, District, and County CAHSEE Results and Notifying Parents/Guardians of the CAHSEE for the 2002–03 School Year: Assistance Packet for Districts and Schools</i> mailed to districts. New CAHSEE Teacher Guides mailed to districts. New set of released test questions mailed to districts.
September 30	Spring 2002 CAHSEE aggregate results at the school, district, county, and state levels posted to CDE's DataQuest Web site.
September 30 & October 2	North/South meeting – September 2002 Assistance Packet, new CAHSEE Teacher Guides, and CAHSEE Remediation Guide distributed. (September 30–Sacramento; October 2–Burbank)
October 10	CAHSEE Remediation Guide mailed to districts.

Facts about the California High School Exit Examination

- State law (Senate Bill 2X), passed in 1999, authorized the development of the California High School Exit Examination (CAHSEE) that students in California public schools will have to pass to receive a high school diploma, beginning with the graduating class of 2004.
- The purpose of the CAHSEE is to help ensure that students who graduate from high school can demonstrate competency in state content standards for reading, writing, and mathematics.
- Assembly Bill (A.B.) 1609, signed by the Governor in October 2001, requires a study to examine whether the test development process and the implementation of standards-based instruction meet the required standards for a high-stakes test. The final report of this study is due by May 1, 2003. A.B. 1609 also authorizes the State Board of Education, on or before August 1, 2003, to delay the date upon which each pupil completing grade 12 is required to successfully pass the CAHSEE. The Board is to use the results of the study as the basis for its decision.

Student Participation

- Beginning with the 2000–01 school year, districts are required to send notification about the CAHSEE to parents/guardians of grade 9 students at the beginning of the first semester or quarter of the regular school term and each year thereafter.
- The CAHSEE consists of two parts: mathematics and English-language arts. The passing score for the mathematics portion of the exam is 55% or a scale score of 350. The passing score for the English-language arts portion of the exam is 60% or a scale score of 350.
- In spring 2002, all tenth-grade students (class of 2004) were required to take the CAHSEE, except those students who previously took and passed both parts. The pass rates for the spring 2002 administrations will be available in late September.
- Students may be given seven additional opportunities to retake the exam. Only the part(s) not passed must be taken again.
- Districts must provide supplemental instruction to students who do not pass the CAHSEE.
- Students who are English learners are required to take the CAHSEE in grade 10 with all students. These students must complete six months of instruction in reading, writing, and comprehension in English during the first 24 months of enrollment in the California school system. They are required to take the CAHSEE during this time. All students must pass the CAHSEE in English to receive their high school diploma.

- Students with special needs must pass the CAHSEE to receive their high school diploma. The CAHSEE must be administered with accommodations and/or modifications specified in the student's Individualized Education Program (IEP) or Section 504 Plan for classroom or statewide testing.
- Students who take the test using a modification will receive an invalidated test score. However, if the invalidated test score is the equivalent to a passing score (i.e., 350 or higher), the district may submit a waiver request on behalf of the student to waive the requirement of successful passage of one or both parts of the CAHSEE to receive a diploma.

Test Content and Format

- The English-language arts part of the CAHSEE addresses state content standards through grade 10. The exam consists of multiple-choice questions and writing tasks. The reading portion covers vocabulary, decoding, informational reading, and literary reading. The writing portion covers writing strategies, applications, and conventions (e.g., spelling, grammar, punctuation). The exam also has a written response to literature or an informational passage and another written response to a writing prompt.
- The mathematics part of the CAHSEE addresses state content standards in grades 6 and 7 as well as algebra 1. It includes statistics, data analysis and probability, number sense (including computation), measurement and geometry, mathematical reasoning, and algebra. Students also must demonstrate a strong foundation in arithmetic, including working with decimals, fractions, and percents. The math exam consists of all multiple-choice questions.
- Released test questions from previous administrations of the CAHSEE are available on CDE's CAHSEE Web site at <http://www.cde.ca.gov/statetests/cahsee>.

Reporting/Using Results

- When districts receive individual student CAHSEE reports, they are to distribute these reports to parents/guardians. CDE will post group-level results annually on the Internet.
- Districts must provide supplemental instruction aligned to the state content standards to assist students who do not pass the exam. This may apply to the seniors who do not pass.

More Information

- Additional information about the CAHSEE is posted on the CDE's CAHSEE Web site at <http://www.cde.ca.gov/statetests/cahsee>.

Reporting the Spring 2002 CAHSEE Aggregate Results: Questions and Answers

When will the spring 2002 CAHSEE results be released to the public?

In September 2002, the spring 2002 CAHSEE results for schools, districts, counties, and the state are scheduled to be posted on the California Department of Education's DataQuest Web site at <http://data1.cde.ca.gov/dataquest>. A link to this Web site will be available through CDE's CAHSEE Web site at <http://www.cde.ca.gov/statetests/cahsee/>. Individual student CAHSEE results are confidential and are not included in the Internet posting.

How can media representatives get the CAHSEE results?

The only direct source for the CAHSEE aggregate results will be CDE's DataQuest Web site. Research files will also be available in tab-delimited format to allow for more complex analyses and customized reporting of the data. These files will be downloadable through CDE's Educational Demographics Office Web site at <http://www.cde.ca.gov/demographics/files/index.html>. A link to this Web site will be available through CDE's CAHSEE Web site.

What reports will be on the Internet?

The Internet reports will include spring 2002 CAHSEE aggregate results for schools, districts, counties, and the state. Results can be viewed from the March 2002, May 2002, and combined March and May 2002 administration. No individual student results will be reported.

What information will appear on the Internet reports?

The Internet reports will present information for all students tested by:

- Gender
- Ethnicity
- Language fluency
- Economic status
- Special education program participation

The Internet reports for mathematics and English-language arts will show:

- Number of students tested
- Number and percent of students who passed
- Number and percent of students who did not pass
- Mean (average) scale score for all students tested

Additional scores for mathematics will include the mean (average) percent correct for the following strands:

- Probability and statistics
- Number sense
- Algebra and functions
- Measurement and geometry
- Algebra 1

Additional scores for English-language arts will include the mean (average) percent correct for:

Reading

- Word analysis
- Reading comprehension
- Literary response and analysis

Writing

- Writing strategies
- Writing conventions

NOTE: The additional scores will not be presented for the combined March and May 2002 administrations, since different forms of the test were used during these administrations.

Reporting the Spring 2002 CAHSEE Aggregate Results: Questions and Answers

What is a mean scale score?

A mean scale score is the statistical average of a group of scale scores. For example, a mean scale score for a school district is the average scale score for the schools in that district. Mean scale scores are used for reporting CAHSEE group results to provide a more precise measurement and to assure that tests given during different administrations are comparable. The CAHSEE provides scale scores for individual students and a mean or average scale score for groups of students. A mean scale score for the CAHSEE ranges from approximately 250 to 450.

How can media representatives see the CAHSEE questions that were administered?

A sample of the questions (62 English-language arts questions and 60 math questions) from March and May 2002 administrations of the CAHSEE are posted on CDE's CAHSEE Web site at <http://www.cde.ca.gov/statetests/cahsee/>. The same number of questions from the March and May 2001 administrations is also available on this Web site.

For more information...

Questions about the spring 2002 CAHSEE results should be directed to CDE's Standards and Assessment Division of the CDE at (916) 657-3011. Additional information can be obtained through CDE's CAHSEE Web site at <http://www.cde.ca.gov/statetests/cahsee/>.

Internet Posting of Spring 2002 CAHSEE Results

The spring 2002 CAHSEE aggregate results will be accessible through CDE's DataQuest Web site at <http://data1.cde.ca.gov/dataquest>. Once at this Web site, follow the instructions provided in the left margin to view CAHSEE results.

The DataQuest Web site will display:

- Aggregate results for the March, May, and combined March and May administrations.
- Aggregate results at the school, district, county, and state levels.
- Demographic aggregate results for students by grade level, gender, ethnicity, language fluency, socioeconomic status, and special education program participation.
- Aggregate results for English-language arts, including: number of students tested, number passed, percent passed, mean scale score, average percent correct for reading (word analysis, reading comprehension, literary response and analysis) and writing (writing strategies, writing conventions), and average score for writing applications (essay 1 and essay 2).
- Aggregate results for mathematics, including: number of students tested, number passed, percent passed, mean scale score, and average percent correct for mathematics strands (probability and statistics, number sense, algebra and functions, measurement and geometry, and algebra 1).
- Summary roster reports at the district, county, and state levels. For example, a district roster report for any given administration would display the overall results for each of the schools in the district that participated in that administration.

Research files will also be available in tab-delimited format to allow for more complex analyses and customized reporting of the data. These files will be downloadable through the California Department of Education's Educational Demographics Office Web site at <http://www.cde.ca.gov/demographics/files/index.html>.

The following pages provide the layout for the research files described above, followed by several sample demographic and roster reports as they will appear on the DataQuest Web site. Sample reports are provided for only a portion of the possible ways in which data can be displayed in DataQuest.
